Slimline Padded

Slimline padded lapstraps provide a space-saving opportunity where maximum pressure distribution is not a requirement. Pads are the same length as our standard 2-Point Padded Lap Strap range but use 1" webbing which enables the pad width to be reduced by nearly 2cm.

L	32 x 5cm	A40T	A42T	A44T	£56.50

Slimline Dynamic Harness

This addition to the range will help to encourage shoulder girdle retraction. It can be used as shown as well as in a cross-over style to provide more control on the sternum.

H-Type Harness

This style of harness combines excellent practicality with comfort and ease of use. The unique combination of materials used to manufacture these innovative harnesses allow them to move with the user, improving postural control.

Trunk Control

X-Type Harness

Updated and redeveloped, our innovative X-Type harness now has a new design of central linking element that is tougher and more resilient. It provides a high-level of support for a female user.

Size	Overall Length	Front Pull	Top Pull	Rear Pull	Price
S	40cm	A20R	A22R	A24R	£68.50
M	45cm	A20S	A22S	A24S	£69.50
L	50cm	A20T	A22T	A24T	£70.50
XL	55cm	A20U	A22U	A24U	£76.00

Trunk Control

Padded Chest Strap

As an alternative to our dynamic harnesses, the Padded Chest Strap provide a level of trunk control, and are very easy to use. The single buckle means the strap can be easily unfastened and removed when necessary.

Size	Pad Size	Max Usable Length	Side Release Single Pull	Price
XS	16.5 x 6.5cm	120cm	A30Q	£32.00
S	19 x 8cm	130cm	A30R	£34.50
M	21.5 x 9cm	145cm	A30S	£37.50
L	24 x 10cm	160cm	A30T	£39.50

Trunk Control

Bandido Harness

Where better load distribution and direct influence on the sternum is important, this new harness could be the solution. The wide pads provide support over a larger area; the rigid central plastic insert facilitates point control on the sternum.

Size	Centreline Length	Front Pull	Top Pull	Rear Pull	Price
XS	28.5cm	A70P	A72P	A74P	£69.50
S	35cm	A70R	A72R	A74R	£69.50
M	42cm	A70S	A72S	A74S	£72.00
L	49cm	A70T	A72T	A74T	£74.00
XL	58.5cm	A70U	A72U	A74U	£76.00

Trunk Control

Heavy Duty Harnesses

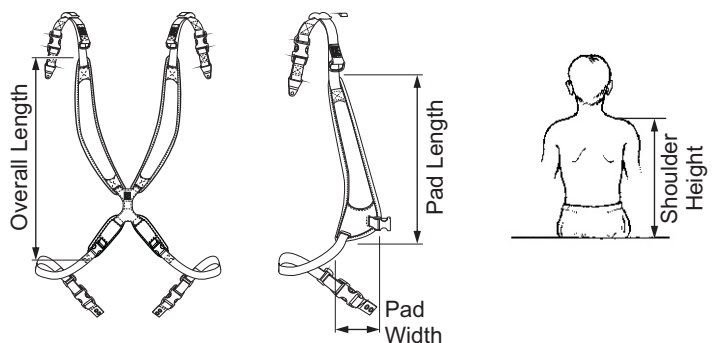

Where the ultimate in strength is a must, our reinforced option will perform. The front face of the harness is covered with a vinyl that removes the dynamic element and ensures the strength is maximised. This option is available in all our harnesses, and at no extra cost.

All of our harnesses are available with a Heavy Duty Option. Please just add the suffix 'HD' to the relevant Part Number when ordering. For example, to order a Medium Heavy Duty Front Pull Harness, use Part Number A10SHD. All Heavy Duty harnesses are priced the same as the standard version.

Actiflex Anatomy

Trunk Control

Dartex face and edging can be wiped clean to ensure day-to-day practicality.

The unique combination of cushioned core and two-way stretch fabrics provide the dynamic properties of the ACTIFLEX harnesses.

Innovative design and construction ensures that ACTIFLEX harnesses are both easy to fit and adjust.

Pelvic Control

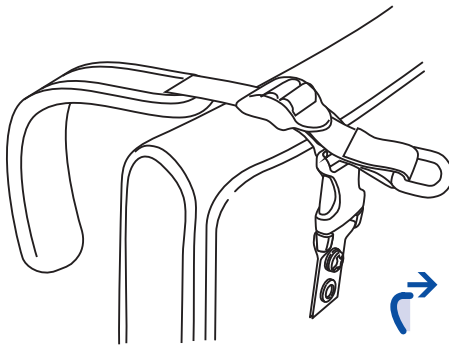

The high quality front face and Dartex edging ensure the lap straps are both durable and very easy to wipe clean.

High quality webbing is sewn inside the ACTIFLEX pad to maximise strength and eliminate strap twisting, ensuring durability and effective positioning.

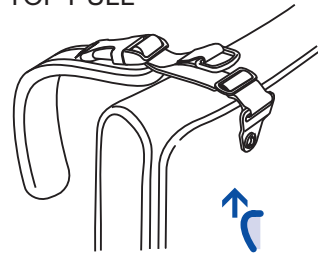

Our minimal slip trigrildes ensure the length of the strap can be easily set without the need to thread the webbing back on itself.

REAR PULL

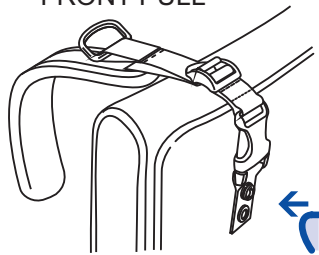

We have significantly improved the design of our Rear Pull harness this year. It is now similar to a Front Pull harness in reverse. This means that the fixing point can be nearer to the top of the backrest board and the harness can be pulled horizontally to tighten it rather than being pulled down the back board. We think this makes such a difference we would normally recommend this end fitting.

TOP PULL

The Top Pull harness has the buckle mounted directly on the top of the pad. Fine adjustment is achieved by pulling the webbing from the top. The top mounting can be positioned anywhere on the backrest.

FRONT PULL

The unique Front Pull harness has a curved ladderlock buckle at the top of the webbing path. The webbing is easily pulled through from the front. The quick-release mounting can be positioned near the top of the backrest.

SAFETY BUCKLE SINGLE PULL

The strong safety buckle used on the centre release lap straps can cope with the heaviest of users. We now have a 1" Safety Buckle.

SIDE RELEASE SINGLE PULL

This high quality side-release buckle offers a cost effective and lightweight option to our standard safety buckle.

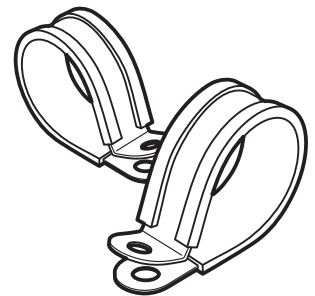

SIDE RELEASE DUAL PULL

Dual pull offers additional positioning options with webbing adjustment on both the left and right.

Free Fitting Kits Now Available

A 'frame' fitting kit is now available free of charge for all lap straps and harnesses. Each kit contains 22mm and 25mm rubber-lined P-clips and fixings. Please request Part No. A44/50 free of charge. Other sizes of P-clip fittings are also available.

Volume Discounts

Where you purchase 5 or more units of the same ACTIFLEX product, we will discount the value of the order in line with the following discount structure:

	1-4	5-9	10-14	15-19	20+
Discount	0%	5%	7.5%	10%	12.5%

Purchasing Information

All ACTIFLEX products carry an unconditional guarantee against faulty workmanship and materials. All our products in this catalogue is manufactured in the UK.

All prices exclude VAT. Please add £2.50 for postage and packing per order. Orders are normally despatched within 48 hours of the order being received.
