NOTES:

- *1 - Neo Disc has upgraded alloy wheels - Neo Hub is being slowly phased out
- *2 - Adds an extra 70mm seat depth (to 530mm). (Useful for deep / wide Seating systems - and for use with Dynamic Backrests)
- *3 - makes the back posts 30mm wider than the seat rails. (allows seating to be set more rearwards, useful if fitting a seat board)
- *4 - Allows interfacing of many types of specialist seating systems (eg Ottobock parallel adaptor, R82 and many others)
